SUMMARY

Third-year Computer and Artificial Intelligence Engineering student focused on cross-stack development, from hardware architecture to scalable software. Experienced in C/C++, Python, and C# through OS kernels, enterprise databases, and deep learning pipelines.

EDUCATION

Ain Shams University | Dual Degree ? University of East London | Expected 2028
B.Sc. Computer & Artificial Intelligence Engineering | GPA: 3.6
College de la Sainte Famille | Baccalaureat Francais | 2024
Highest Honors (Summa Cum Laude / Felicitations du Jury)

TECHNICAL SKILLS

Languages: C/C++, Python, Java, C#, VHDL, MIPS Assembly, JavaScript, SQL
Systems: Memory Management, FOS Kernel, Compiler Design, CPU Scheduling, RTL Design, FPGA, Digital Logic, Hardware-Software Interface
Tools: Git/GitHub, Vivado, Logisim, LTSpice, .NET, WinForms, PyTorch, scikit-learn, Microsoft Excel, Office 365

PROFESSIONAL EXPERIENCE

e& | Enterprise Security Intern | Aug 2025
Future Career | Business Process Engineering Intern | Jul 2024
Dell Technologies | Cloud Infrastructure Trainee | Dec 2021

PROJECTS

Operations & Inventory Tracker | Excel / JavaScript
Operating System Kernel (FOS) | C
Custom Tiny Language Compiler | C/C++
Enterprise Cinema Booking System | C# / SQL Server
32-Bit Single-Cycle MIPS Processor | VHDL / Vivado
Machine Learning Scene Classification | Python / PyTorch (60.3% val. acc.)
